

Finding the smooth Air

The background of the banner features a stylized illustration of a red airplane with a white tail flying from the bottom right towards the top left. The airplane is leaving a white wake behind it. Below the airplane is a series of blue and white waves. Overlaid on the waves is the text "Finding the smooth Air" in a large, white, outlined font with a red shadow. The text is slanted upwards from left to right, following the curve of the wake.

Online PitchNic Premiere **FITRAH | A-LINK | AMERICAN MASK | HOPE**

Spy Hop announces the online world premiere of a collection of four new student films from the PitchNic Program. Over the past year, students have persevered through the pandemic and the challenges of online school to write, produce and edit two documentary films and two narrative films. Join us in celebrating the hard work of these local, upcoming filmmakers.

The world premiere of **Fitrah**, **A-Link**, **American Mask**, and **Hope** will be hosted online through our partnership with the **Utah Film Center** on **December 1 at 7 PM (MST)**. Student filmmakers and their mentors will be a part of this live online event and there will be a short Q&A after each film. This year's films delve into a variety of topics including sci-fi, the politics of mask wearing, female muslim artists, and Syrian refugees.

*The PitchNic Film Premiere is not recommended for children under the age of 8.
